DETAILED ACTION

1. Applicant's election of Group I, claims 1, 2, and 7, in the reply filed on 7-25-08 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). It is noted that Applicant merely repeated the reasoning given by the Examiner for making the restriction and then "questioned" whether the use of a powdered elastomer or performing the trimming process would actually consist of a materially different process. Applicant did not, however, provide any reasoning why the proposed restriction was not proper or why the different Groupings did not consist of materially different processes.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Neal (2001/0015157).

Neal discloses armor with all claimed elements including an aramid fabric 120, an elastomer impregnated in said fabric and ceramic tiles 100, 110 embedded in the elastomer on a face of the fabric. See especially paragraphs 18 and 22.
